

Benefits Of Europrivacy GDPR Certification Scheme

TAM CERT HUNGARY LTD. IS THE FIRST
ACCREDITED CERTIFICATION BODY
IN THE EU FOR GDPR CERTIFICATION

AUDIT AND CERTIFY YOUR CONFORMITY IN DATA
PROTECTION WITH EUROPRIVACY™®

ABOUT EUROPRIVACY

EuroPrivacy is a highly reliable and efficient certification scheme to assess compliance with the GDPR and complementary national obligations where applicable. It has been developed with the support of the H2020 European research program and is managed by an international board of experts in data protection with the support of the European Center for Certification and Privacy in Luxembourg.

WHY?

Personal data protection is a fundamental right. Thanks to the General Data Protection Regulation (GDPR), data subjects' rights can no longer be ignored.

Europrivacy has been developed to support article 42 of the GDPR, which states that "the Board and the Commission shall encourage, in particular at Union level, the establishment of data protection certification mechanisms and of data protection seals and marks, for the purpose of demonstrating compliance with this Regulation of processing operations by controllers and processors." Europrivacy enables "data subjects to quickly assess the level of data protection of relevant products and services" as specified in recital 100 GDPR. Europrivacy has been developed to deliver highly reliable and efficient certification of GDPR compliance based on impartial third-party assessment. It enables qualified auditors to serve and protect the rights of the data subjects. It contributes to building a more secure and respectful European digital single market.

Europrivacy is a certification scheme for assessing the compliance of data processing activities with the GDPR and complementary applicable data protection regulations. It focuses on the obligations whose non-compliance would expose the data subjects or the applicants at

risk. It is based on the GDPR and can easily be extended to complementary national and domain-specific obligations. It aims at providing "an independent, impartial, and reasonable assurance level of data processing compliance with the European General Data Protection Regulation and, where applicable, with complementary data protection requirements, such as national regulations or domain specific requirements." It has been designed to certify a large scope of data processing by complementing its core list of criteria with complementary checks and controls to address specific domain and technology used in the Target of Evaluation. Thanks to its strong anchor in the research community, it is applicable to data processing using emerging technologies, such as Artificial Intelligence, Internet of Things, Blockchain, etc. Europrivacy provides a highly reliable and efficient solution to:

WHAT FOR?

- ✓ assess and certify compliance of data processing with the GDPR
- ✓ identify potential non-conformity to reduce the legal, financial, and reputational risks
- ✓ enhance data protection through surveillance audits
- ✓ build trust and confidence for data subjects

ABOUT TAM CERT

TAM CERT Hungary Inspection and Certification Ltd. is one of the most reliable testing, inspection, certification and independent expert company. The Testing, Inspection and Certification industry is based on the demand for the conformity assessment of increasingly complex technological value creation procedures, processes, products and the persons operating them.

TAM CERT Hungary Inspection and Certification Ltd. is an official partner of the European Centre for Certification and Privacy to support the implementation of Europrivacy TM/® data protection related services.

TAM CERT is the first accredited certification organization in the EU for GDPR certification. The company also serves as the relevant Product Certification Body accredited by the National Accreditation Authority (NAH) under No NAH-8-0070/2023. In this field the NAH is a signatory of the European co-operation for Accreditation (EA) Multilateral Agreement (MLA) for accreditation.

TAM CERT Hungary Inspection and Certification Ltd. has been selected and qualified as Europrivacy™® official partner by the European Centre for Certification and Privacy. We support and prepare our clients for certifying the conformity of their data processing activities with Europrivacy and the European General Data Protection Regulation (GDPR), in order to:

- ✓ Identify and reduce legal and financial risks through the Europrivacy audit and gap analysis
- ✓ Improve reputation and access to the market through the Europrivacy GDPR certification
- ✓ Build trust and confidence through continuous updates and monitoring
